**Arab Academy for Science, Technology & Maritime
Transport is looking for Technical Expert for Training
programs design, GREENLAND Project**

December 2021

The Arab Academy for Science, Technology & Maritime Transport, partner of the GREENLAND project is looking to hire staff for the following position: Technical Expert for Training programs design, GREENLAND Project

The GREENLAND “GREEN-skills for a sustAiNable Development” project aims to increase the employability of NEETs (up to 30 years old) and women (all ages) by providing them with marketable skills and qualifications to prepare them for skill-based occupations within the Green and Circular Economy sectors and reduce skill mismatches in rural areas particularly affected by the climate change

Project background : On the environmental side, the project will increase skills for a resource-efficient and inclusive Green Economy that ultimately contributes to combating climate change, reducing the mismatch between the labour market and skills. On the economic side, GREENLAND will support the engagement of NEETs and women to set up enterprises in the Green and Circular Economy sectors.

GREENLAND project is funded by EU through ENI CBC MED program.

The Mediterranean area suffers from extremely high rates of youth and female unemployment. To face this challenge, GREENLAND promotes social inclusion and fight against poverty by providing unskilled and underprivileged young people with marketable skills in the Green and Circular Economy, with the potential to generate thousands of jobs. To reach its objective, the project will create new curricula based on market needs, skills transfer to NEETs and women, media-based training tools, and cultural exchanges among young people. The creation of new employment opportunities will be reinforced by the sector-skills alliances between TVETs and SMEs.

Date of publication: 01/12/2021

The deadline for receiving applications (CVs) for this vacancy is the 20th of December 2021, The main responsibilities of the Technical Expert will be the following:

- Prepare the training packages of the Labskills with other experts
- Prepare the training programs of soft skills
- Supervise the training modules which should be uploaded in the e-platform
- Develop the plan of training

Qualifications and skills:

- At least 5 years of general professional experience in community development, NEETs and capacity building programs
- At least 5 years of proven experience in training for employment
- At least 5 years of experience with EU projects.
- Proven experience in similar projects in Egypt (mainly Alexandria & Elbahira Governorates)
- Excellent knowledge of English.
