* [Second Nature's Presidents' Climate Leadership Commitments](#)

** Signatories of the 'Not Zero Net Zero' campaign of TERRE Policy Centre under its path-breaking project of Smart Campus Cloud Network (SCCN) is driven by IPCC's strong message to achieve global Carbon Neutrality. The campaign localises the actions where they matter the most i.e. University Campuses. SCCN encourages the transformation of campus into climate and SDGs laboratories. Students who are the policy makers and action-leaders of tomorrow are provided with guidelines by TERRE/SCCN so that the universities prepare the roadmap of Carbon Neutrality on their own within the time targets stipulated by IPCC.
