Course Information

Course Name: Supervising Container Yard Operations

Institute/Centre: Port Training Institute **Course Code:** S.2.3

Type: Program Course Workshop

Course Duration: 5 Days 3 Days 1 Days Other

Course Conducted: Local International Indicate: A.R.E

Course Venue: Anywhere

Course Language: English Arabic Both Other

Course Description

Course Outlines:

1. Introduction: control, communication and supervision of container yard activities
2. Container yard personnel and responsibilities
3. Initiation and planning of container yard operations
4. Pre-shift checks and operations start-up
5. Container yard-CFS movements
6. Movements to and from examination areas
7. In-stack movements — planning, supervision and control
8. Keeping containers in safe custody
9. Maintaining the container yard inventory
10. Responsibilities of the container yard supervisor.

Course Objectives:

This Unit is designed:

- To explain the systems by which container yard operations are supervised and controlled.
- To describe how container yard activities are planned, and how supervisory and control staff prepare for, take over and begin work.
- To describe the procedures followed in controlling and supervising movements between the container yard, CFS and examination areas.
- To describe the supervision and control of in-stack and securing activities.
- To explain the importance of the container yard inventory and how it is maintained.
- To review the role of the supervisor in container yard operations.
- To improve the quality of supervision of container yard operations and to provide the knowledge and skills needed to review critically current supervisory procedures and mechanisms.

Course includes: Theoretical Fire training module Laboratory
 Workshop Site Visit
