

Springer

Authors Lecture by Springer

In collaboration with The Arab Academy for Science, Technology & Maritime Transport

Sunday 28 October, 2018 - College of Engineering - Farsy Hall - 12:00 PM

Expected Learning Outcomes

- Learning how to pick a trendy topic that would attract readers in the field.
- Learning the technical, expressive, and critical skills required for writers to prepare their papers for publication.
- Learn how to use the services and tools provided by Springer.
- Learn the submission process of submitting a paper
- Learn how submissions are evaluated and how to attract editors and reviewers to your paper.
- Learning how to make a research paper accessible to the public and professionals in the field
- Learn the publication ethics.
- Gain knowledge on how to promote your own career.

The Workshop Supervisor:

Dr. Nabil Khelifi, is a Senior Publishing Editor managing Springer Middle East & North Africa Program, which is a part of Springer Nature in Germany. In collaboration with international scientific editors.

Nabil Khélifi

Senior Publishing Editor, Springer
Middle East & North Africa
