

AASTMT College of Art and Design

“You can now study Art and Design at AAST, the irreplaceable component in every state-of-the-art industrial organization”

College Message

The College of Art of Design is a huge addition to the undergraduate educational program at AASTMT. It introduces ART and DESIGN in an integrated manner to students through five separate, yet, integrated programs, which are: Industrial Design, Graphic Communication Design, Fashion Design, Interior and Furniture Design and, Film and Visual Arts. These five fields of knowledge are carefully selected to suit the urgent need for these disciplines in Egypt, thus providing many opportunities for graduates to flourish and serve the industry in a creative and unprecedented way in the region.

The main objective of the college lies in achieving excellency in all provided educational services, through effective implementation of a continuous improvement concept. Adopting the multi-disciplinary approach in teaching courses and workshops, plus providing an expanded knowledge in the College of Art and Design is driven by utilizing faculty members from other disciplines, plus artists and professionals from the field of art and design. The College of Art of Design will play a proactive role in the future through serving its industry in the region.

We encourage all interested students to attend the weekly orientations and workshops, in both the Sheraton and Smart Village branches, to get more insight and experience a hands-on approach to the College of Art and Design. Please call 19838

for the schedule and to book your place. Additionally, you can check out the following links:
