

3.3.4 Sexual and Reproductive Health Care Services for Students

2023-2024

Medical services in all fields are easily accessible for students and staff members including sexual and reproductive health care within gynecology and obstetrics clinics. AASTMT organizes frequent events to ensure awareness and health education.

Awareness of Sexually transmitted Diseases (2023)

National HIV Day

June 27th is the national HIV testing day. A day that emphasizes the importance of testing HIV to know your status, protect yourself, and keep yourself healthy with precautionary measures.

Women in Medicine Event

Women have practiced medicine since antiquity even before the professionalization of modern medicine. Be it herbal remedies, alternative medicine, or midwifery, they have proved their natural roles as caregivers time and again, despite more numbers of men in the profession since ancient times. The history of women in medicine is long and wide, starting in ancient Greece till the present day.

Sexual and Reproductive Health Awareness Sessions (2024):

Training at Obstetrics and Gynecology (OB-GYN) Hospitals

Alex Sydney Hospital and Agial hospitals hosted our medical students from the AAST College of Medicine for their summer training. Each program ran for eight consecutive weeks, from July 15 to September 15. The hospital staff exemplified dedication and professionalism, providing top-tier healthcare services and setting a standard of commitment. We look forward to continued success and collaboration.

Sexual Assault Awareness

These are just a few of the hurtful comments victims often hear. As a community, we must truly listen to them with open hearts and without judgment. Many have endured so much that their minds resorted to erasing memories just to survive.
