

5.6.5 Childcare Facilities for Staff and Faculty

2023-2024

AASTMT recognises that dependable childcare is essential for its people and works to create a supportive, inclusive environment for colleagues with young children. In practice, AASTMT's Protocol & Public Relations unit maintains staff arrangements with local nurseries—published openly as part of staff discounts (e.g., ABC Nursery in Smouha and others)—to ease access and cost for childcare. (AASTMT) On the Smart Village campus, AASTMT operates within the Smart Village business park, so staff based there benefit from proximity to the park's on-site nursery service and family-oriented amenities, as described by Smart Village itself; AASTMT's own pages and news also emphasise the campus' advanced facilities that support day-to-day work and study. (AASTMT) At El-Alamein, AASTMT continues to expand family-friendly infrastructure on campus (e.g., new residence facilities and ongoing amenities development), reflecting a broader push to make studying and working with the Academy logistically easier for families. (AASTMT)

Smart Village Schools And Nursery

Part and parcel of “ultimate convenience” is the consideration of the wider needs of our corporate partners most valuable assets...their people. AT SV, we have the option of leaving your child at our local nursery while you go to work, as well as taking them to Smart Village Schools where we provide the best educational systems from England and France.

- *Smart Village campus facilities in use (AASTMT news item): tour noting “various facilities provided by AASTMT to support the educational process.”* (AASTMT)
- *El-Alamein campus growth (AASTMT news): inspection of new student residence facilities (Sakan Misr).* (AASTMT)
