11.4.4 Affordable housing for employees

The Arab Academy for Science, Technology and Maritime Transport (AASTMT) recognizes affordable housing as an important component of inclusive urban development and employee welfare. It established an institutional precedent for accommodation at cost price and financial assistance, designed to alleviate pressures from the housing market. These mechanisms can support residential stability, equitable access to employment and more sustainable commuting, while reducing vulnerability to the pressures of urbanization and gentrification. Across Alexandria (main campus), Cairo, Port Said, El Alamein and Aswan, this approach provides a framework for integrating workforce housing with sustainable urban planning.

Integrating Affordable Housing and Sustainable Communities to Enhance AASTMT's Environment for Employees

"Provision of On-Campus Accommodation"

AASTMT in Alexandria (main campus), Port Said, El Alamein, and Aswan (South Valley) provides official accommodation for both staff and students.
