

Disposal Initiative at The College Of Pharmacy

The College Of Pharmacy At AASTMT Is Reinforcing Its Commitment To Environmental Safety With A Waste Disposal Initiative In Its Laboratories. Liquid Chemical Waste Is Collected In Designated Bottles Within Each Lab And Then Transferred To Larger Containers, While Broken Glass Is Stored In Separate Containers For Safe Disposal. All Waste Is Ultimately Handed Over To Nahdet Misr Company, A Certified Provider, To Ensure Environmentally Responsible Disposal. This Initiative Highlights AASTMT's Dedication To Maintaining A Safe And Eco-Friendly Campus Environment.
