

## **12.4.1 Publication of a Sustainability Report**

**2023-2024**

### **AASTMT Sustainability Report**

All data featured in this report was internally gathered, verified, and processed through a secure platform before being compiled into the final document. In identifying the material topics, indicators, and reporting boundaries, the Academy considered its Strategic Plan, which envisions AASTMT as a regional leader in academic excellence, research and innovation, student development, social responsibility, and global engagement.

This report presents a comprehensive overview of the Academy's governance framework, operational practices, teaching and learning environment, research activities, and community engagement initiatives throughout the academic year 2023-2024. It also outlines AASTMT's performance on issues of significance to its stakeholders, including faculty and staff, industry partners, government entities, community organizations, businesses, and students.

The Academy remains firmly committed to continuous improvement and open, ongoing engagement with its stakeholders.
