Student Representation - Environmental, Social, and Governance (ESG)

The web page outlines AASTMT's institutional commitment to participatory governance by having actively participative embedding student voices directly into its decision-making infrastructure. Through democratic Student Union elections conducted electronically via the Student Portal, two elected student representatives secure formal, equal seats on the university-level Advisory Board. This equal platform extends to college-level and industrial advisory councils, ensuring comprehensive student inclusion in the university's strategic planning and governance policies.
