

Discusses ways of Cooperation The Arab Academy for Science, Technology and Maritime Transport and The Federal Authority for land and Maritime Transport UAE

September 2020

The Arab Academy for science, technology and maritime transport discussed ways of joint cooperation with The Federal Authority for Land and Maritime transport UAE.

This comes to employ all the capabilities of the academy and the expertise of its educational staff in order to serve and develop the maritime sector in the UAE and within the directions of its strategic plan in consolidating the status of the state as a leading maritime center worldwide

The meeting was attended by His Excellency Professor His Excellency Dr. Ismail Abdel Ghafar Ismail Farag, President of The Arab Academy for Science, Technology and Maritime Transport, His Excellency Engineer Hessa Al Malik, executive director of the maritime transport sector at the federal authority for land and maritime transport, with the participation of Dr. Ahmed Yousef, deputy dean of the College of maritime transport and technology at the Arab Academy for science, technology and Maritime Transport, Dr. Aisha Al busmait, director of Government Communication Department at the federal authority for land and maritime transport and the maritime goodwill ambassador to the International Maritime Organization, along with the captain. Abdullah Al Hiyas, director of maritime transport department at TRA Federal land and maritime transport.

This is in order to achieve the vision of the Academy in strengthening the Arab maritime sector through the qualification of national cadres and the provision of scientific research and development services.
