

The International Conference on Maritime Transport and Logistics Marlog 10

June 2021

The international maritime transport and logistics conference Marlog 10, which is being held under the title: (Digitization in ports and the Maritime Transport Industry), organized by the Arab Academy for science, technology and maritime transport "in cooperation with the International Organization for water transport infrastructure (Pianc), the Scientific Partner of the conference, the Italian University of Genoa, the Academic Partner of the conference, and the Suez Canal Economic General Authority, kicked off this morning" Sunday, June .in Alexandria.

The opening session was attended by the team of His Excellency Engineer Kamel al-Wazir, Minister of transport Major General Mohammed al-Sharif, Governor of Alexandria, Dr. Dina Al-Zaher, director of the Department of transport and tourism at the league of Arab states, His Excellency Dr.Ismail Abdel Ghafar Ismail Farag, President of The Arab Academy for Science, Technology and Maritime Transport, and Maritime Transport. The annual forum, which brings together a distinguished crowd of experts and specialists in maritime transport, ports and logistics from Egypt and the Arab region ".

The opening of the International Conference on maritime transport and logistics Marlog 10, organized by the Arab Academy for science, technology and maritime transport year after year to discuss the latest developments of maritime affairs, as it has become one of the public scientific events at the local and regional levels. Bing the Academy one of the specialized organizations of the league of Arab states, is always keen to choose topics that contribute to the development of the port industry, maritime transport and logistics in the Arab region to be raised and discussed among specialists in this field, looking forward to making the future of our Arab nation better in the maritime transport industry, and this is possible only by exploiting our resources in a correct way, taking advantage of experiences, and trying to build ports for the future, by managing the available resources with a more sustainable, cost-effective and performance approach, which maximizes the productivity and efficiency of ports, the Academy is always looking forward to upgrading its level in terms of providing educational and training services and the latest achievements of international universities, The Academy has recently achieved a distinguished assessment in the QS Top Universities rating (QS Stars), and the Academy has deservedly received a five-star rating as an overall assessment of the University QS 5 Stars Overall Ranking and QS is one of the two largest sides to evaluate universities in the world, and thus the Academy is the first university at the level of Egyptian universities to receive a 5-star rating in seven different indicators within the assessment of the "QS" institution And by obtaining a 5-star rating, the Academy has joined the list of

Universities of the Arab world that receive a 5-star rating, which includes only 11 other universities at the level of the Arab world

The Marlog, conference is always a race in the development of theses and always offered to develop theses on opportunities to benefit from giant projects and discuss ways to integrate between Arab ports that have longitudinal coasts, and innovation in ports and the maritime transport sector has become necessary to reshape the existence of a form that allows excellence.

The Marlog, International Maritime Transport Conference enjoys great participation due to its importance and its constant pursuit in the development of the maritime transport industry through discussions and recommendations to face the challenges facing the maritime transport sector, pointing out that investment in ports is closely linked to development .
