

Egypt RALLY STARTUP COMPETITION, 2019

Rally Startup is a competition organized by AAST EC and powered by AASTMT for anyone who wants to start their own business. University students and startup founders will have the chance to present and discuss their business ideas with experts from various fields and industries. The competition was initiated in 2016 with the aim to provide guidance, mentorship and investment opportunities to individuals and teams who are eager to follow their dreams and kick-off their business.

RALLY STARTUP COMPETITION

The Competition provides tracks for both university students and startup founders in a wide range of industries focusing on innovation and technology. The competition is a full pre-incubation program that takes participants from the ideation phase to generating the prototype within 6 months. Participants will attend various entrepreneurship training events, and then they get a chance to pitch their startup ideas to business leaders, investors and members from the entrepreneurship eco-system.
