Profile

I am a passionate university student with a current GPA of 3.73. I have a good programming background and look forward to fulfilling my potential as a software developer and working hard to achieve mutual success.

Employment History

Mentor, Tech Innovation Challenge AAST, Giza

MARCH 2022 — JUNE 2022

The Tech Innovation Challenge was created by the Arab Academy for Science and Technology, and I was assigned as a mentor to a group of contestants, who were high school students. They were required to solve an environmental issue using technology and I have successfully mentored my assigned group with my programming experience.

Intern, QNB, Giza

SEPTEMBER 2022 — OCTOBER 2022

QNB has provided me with an internship where I was assigned in four different departments: Networks, Development, Databases, and Infrastructure.

Mentor, Tech Innovation Challenge AAST, Giza

JANUARY 2023 — MAY 2023

The Tech Innovation Challenge was created by the Arab Academy for Science and Technology, and I was assigned as a mentor to a group of contestants, who were high school students. They were required to solve an environmental issue using technology and I have successfully mentored my assigned group with my programming experience.
