## Summary

---

Dr. Hany is an accomplished Assistant Professor specializing in entrepreneurship, logistics, and supply chain management. Currently serving as the Associate Dean for Student Affairs at the esteemed Arab Academy for Science Technology and Maritime Transport (AAST), he is recognized as a leading authority in his field.

With a Ph.D. in Green Supply Chain Management from the prestigious Strathclyde University in the UK, Dr. Hany possesses exceptional expertise in sustainable business practices and their integration into supply chain operations.

Dr. Hany's contributions extend beyond academia. He is a respected business development consultant and a dedicated mentor for new startups. His insights and guidance have helped organizations enhance their operations and embrace sustainability. With a strong focus on fostering innovation, Dr. Hany empowers emerging entrepreneurs to navigate the challenges of establishing and scaling their ventures successfully.

Previously, Dr. Hany held key roles at the AAST Entrepreneurship Center, including Head of the Operations Department and Business Incubator Manager. He facilitated the growth of numerous entrepreneurial endeavors, leveraging his profound insights into operational efficiency, strategic planning, and sustainable supply chain management.

Committed to continuous professional development, Dr. Hany holds the higher FIATA diploma in supply chain management (HFDSCM) from the FIATA and has completed the Babson University TOT in Entrepreneurship. He has also acquired certifications from esteemed international organizations such as USAID and GIZ, further enhancing his credentials.

Dr. Hany's expertise and thought leadership have earned him recognition as an honored advisor and esteemed jury member in national and global entrepreneurial competitions. He has delivered impactful seminars, training sessions, courses, workshops, and collaborative initiatives in partnership with governments, NGOs, universities, and companies. His efforts have focused on fostering entrepreneurship awareness and facilitating sustainable business development.

With his exceptional knowledge, practical experience, and unwavering commitment to sustainable practices within the supply chain, Dr. Hany continues to make a profound impact. He is dedicated to advancing entrepreneurship, logistics, and supply chain management, particularly in the realm of green supply chains, positioning himself as an influential figure in academia and industry alike.
